ABOUT “PORCINE RESEARCH”

Porcine Research is a peer-reviewed journal. Each published article was independently seen before by two scientific reviewers and at least one specialist in English language.

The journal covers all the fields of porcine research (structure, function, evolution, ecology, taxonomy) and swine husbandry (applied biology, legislation, meat production technology, or biotechnology).

Porcine Research is a good opportunity for you to publish your original research, review, opinion, essay or short communication, both printed and online, color, open access. Peer-review policy: double blind peer-review is used.
